

## Flowers

Petals fall, but don't die  
Friendships are the same way  
They start out strong  
Air and all  
But sometimes water runs  
But runs dry  
They shrivel  
They fall  
They cry  
But sometimes they  
grow into something better  
Petals fall  
Friendships fail  
Healing takes time  
So new things can grow  
From old things that die
