

## ECLIPSE POEM

The sun has so much power.  
By the way, the eclipse took two hour(s).

The light was there,  
And then, it wasn't anywhere,  
But, the sun flare  
Blared!

It was 60 degrees.  
Then, it got cold.  
I was still bold,  
Not as in days of old.  
I knew the sun wasn't  
swallowed by a toad.

I couldn't make a comment  
About the comet;  
Other people saw it.

The diamond ring  
Was so beautiful and bling  
That it could have come  
down with a ding  
Like a ring  
On my fing-(er).

Totality is colorality;  
The eclipse  
barely a glimpse.
