

## **An Angel's Wings**

An angel's wings are soft yet strong  
They can comfort us  
Ease our pain  
lead us to wisdom  
Support us through our lives  
And carry us to Heaven  
They support us in our grief  
They lead us when we need them to  
They are everywhere around us at all times  
We just need to listen and we can hear them  
singing in times of joy  
We can hear their words of comfort in times  
of grief  
We can feel the gentle breeze as they rise  
to Heaven  
Everyone has an angel for their comfort and  
guidance.
