

AUTUMN

Nature's crowning glory, prelude to winter's rest
From coast to coast, we travel to see the best
We all boast that our area has the brightest colors
When looking across the way at the tree tops we see
The brightest reds, yellows, oranges, mixed with browns and green
Looking as welcoming as a fluffy, warm, comfortable blanket
Soon they will gently fall to the ground to be put in piles
This is when the children have their fun with many happy smiles
They play in these piles, jumping and tossing
Knowing that as the temperature starts to fall
Winter's snow is soon to be on the way
