

Help Wanted

Is this really what you voted for?

Families facing death and starvation
flung into captivity, wrested apart from each other.

Hard working aspirants for freedom,
terrified to leave shelter and go to work.

Did you forget how your own relatives
emigrated here for a better life?

We are a country of immigrants
who have become so successful
we no longer want to work hard.
Or did you forget what it feels like
to hold your grandchildren?
